

PROVA ESTRATTA 24/10/22

PROVA SCRITTA N°1

1° quesito

D-dimero: variabilità pre-analitica e metodi di dosaggio

---

---

---

---

---

---

---

---

---

---

2°quesito

Approccio reflex per dosaggio del TSH

---

---

---

---

---

---

---

---

---

---

3° quesito

WEST-NILE: diagnostica sierologica e molecolare

---

---

---

---

---

---

---

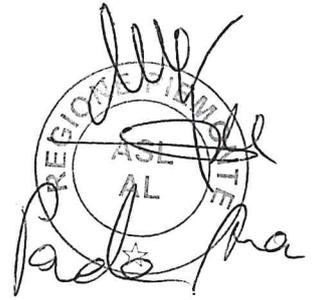

---

---

---

PROVA NON ESTRATTA 24/10/22

PROVA SCRITTA N°2

1°quesito

Sierologia del Citomegalovirus in gravidanza

---

---

---

---

---

---

---

---

---

---

2°quesito

I principali marcatori di flogosi

---

---

---

---

---

---

---

---

---

---

3° quesito

Diagnostica decentrata dei marcatori cardiaci

---

---

---

---

---

---

---

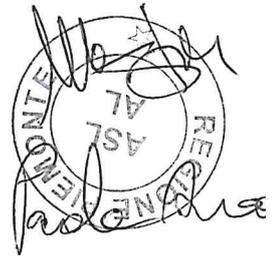

---

---

---

PROVA NON ESTRATTA 24/10/22

PROVA SCRITTA N°3

1° quesito

Identificazione e caratterizzazione delle componenti monoclonali nel siero e nelle urine

---

---

---

---

---

---

---

---

---

---

2°quesito

Referto ematologico di laboratorio: commenti interpretativi

---

---

---

---

---

---

---

---

---

---

3° quesito

Analisi del liquido cefalorachidiano: esami biochimici, citologici e microbiologici di base

---

---

---

---

---

---

---

---

---

---
